## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: The instantly claimed method for producing a diol derivative is neither disclosed nor fairly suggested by the closest art of record: Biella et al (Catalysis Today, Application of Gold Catalysts to Selective Liquid Phase Oxidation, 2002, 72, pages 43-49). Biella teaches (Page 44, section 2.3; page 46, Table 2, entry 1) a process for the oxidation of ethylene glycol and other diols to the corresponding hydroxy monocarboxylic acids in the presence of a supported gold-based catalyst and molecular oxygen. The product of Biella however, corresponds to the sodium glycolate since the reaction is conducted under alkaline conditions in the presence of NaOH. Under basic conditions the corresponding ester would not be expected to form. One of ordinary skill in the art would not have been motivated to modify the conditions of Biella by conducting the reaction under non-basic conditions to produce the ester, nor would there have been a reasonable expectation of success for such modification, since Biella teaches (Page 45, paragraph bridging columns 1 and 2 and 1<sup>st</sup> full paragraph, column 2) that the gold catalyst is active only under basic conditions. The instantly claimed method for producing a diol derivative is therefore patentable over the teaching of Biella, the closest prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Katsu Arai on August 2, 2005.

The claims have been amended as follows:

Claims 13-15 have been canceled.
